Continuation of 4(e) Other: All claims being currently amended must be presented with markings to indicate the changes that have been made relative to the immediate prior version. See MPEP § 714 II(C).

Claim 1 includes language that was not in the immediate prior version, specifically "the" in line 11 of the claim. There has been no indication, via marking, that this language has been added to the claim.

Claims 13-15 have deleted a comma (",") after the word "including" in line 2 of the claims, but there is no marking indicated that the comma has been deleted from the immediate prior version.

Claim 21 includes language that was not in the immediate prior version, specifically "over the Internet" in line 6 of the claim. There has been no indication, via marking, that this language has been added to the claim.

After going over the amended claims, the Examiner submits that, at least, these errors are present, however the Examiner suggests that Applicant also review all the amended claims, in order to verify that all the claims being currently amended are indeed presented with markings to indicate the changes that have been made relative to the immediate prior version.
